Petition for a Just Debt Policy

In Ireland's new debt policy, I call on the Irish government to support:

- Greatly expanded debt cancellation, free from conditions, for all Southern countries that need it
- Recognition by Ireland, the EU, the World Bank and International Monetary Fund of the responsibility of lenders in the creation of unjust debts
- The establishment of debt audits in the Global South
- The establishment of an international taskforce on tackling historic, illegitimate debts
- Recognition of the climate debt owed to countries of the Global South and the need for grant based support (not loans) to Southern countries to cope with climate change
